**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric King on 9/30/03.

In claim 1, line 1, replace the phrase "A method" with the phrase --A method for performing integrated adjustable short-haul/long-haul time domain reflectometry, the method--.

In claim 23, line 1, replace the phrase "A system" with the phrase --A system for performing integrated adjustable short-haul/long-haul time domain reflectometry, the system--.

In abstract, line 1, replace the phrase "Embodiments of the invention relate to" with the phrase --A method and system for--; lines 8-9, replace the phrase "embodiments of the invention eliminate" with the phrase --it eliminates--; lines 9-10, replace the phrase "embodiments of the invention" with the phrase --the system--.

***Allowable Subject Matter***

Claims 1-44 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the use of time domain reflectometry (TDR) on the short-haul/long-haul applications integrated into Line Interface Unit (LIU) over a

Art Unit: 2863

network. For instance, the most pertinent reference T1/E1/J1 Transceivers from Level One does not teach or suggest the implement of TDR on the long haul/short haul applications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
